---

**Z** **1** **0** **1** **7** - **A** **0** **0** - **B** **B** **B** - **C** **C** **C** - **D** **D**

**MODEL SERIES:** \_\_\_\_\_

\_\_\_\_\_ **SUFFIX IDENTIFIER:**

Z1017 – A00 = Mounting track, plastic for, 2 3/4 and 3 1/4 wide circuit boards.

**BBB = MOUNTING TRACK WIDTH:**

002 = Holds 2 3/4 (2.75) inch wide circuit boards.

037 = Holds 3 1/4 (3.25) inch wide circuit boards.

**CCC = MOUNTING TRACK LENGTH:**

120 = 12 inches long.

240 = 24 inches long.

480 = 48 inches long.

**DD = FACTORY INSTALLED OPTION IDENTIFIER:**

00 = Standard, no options.

XX = Special features, factory assigned number.

**NOTES:**

- 1) This mounting track should be secured to the user's control panel with 3/16 inch diameter plastic rivets, number 10 binding head screws or optionally, double sided adhesive tape.
- 2) In the event that metal screws are used to attach the mounting track to the control panel, the exposed heads of the screws must be covered with electrical tape or other suitable insulator.
- 3) The three mounting track lengths, suffix BBB, shown above are stocked items. Any length from 1 to 48 inches can be supplied, upon request. User's who require special lengths should contact Datatran's Sales Department for availability and price information.
